

Teachers'
NIGHT
KANSAS COSMOSPHERE & SPACE CENTER
AT THE COS

Teachers: Come Explore Educational Opportunities!

Fri., Nov. 18, 2011

4:00 to 9:00 pm

Kansas Cosmosphere and Space Center

If you are a teacher at any grade level including college, we want you to be our guest and gather inspiration for your classroom. Discover our new gallery addition to the Hall of Space Museum, sample gourmet liquid oxygen ice cream, operate a robot and more. As a Smithsonian-affiliated institution we have the ability to offer teachers unparalleled opportunities meeting state education standards.

Take in a customized planetarium show and hear from Dr. Kaspar von Braun, a leading researcher in astronomical science from NASA's Exoplanet Institute. Enjoy food and beverages while networking with your peers. Connect with educator partners from across the state and develop relationships that become an asset to your classroom.

***This event is complimentary,
but advance reservations for
the evening are required.***

Register before Friday, November 11th.

**Contact Laurie Givan,
education coordinator, at
620.665.9323 or email
laurieg@cosmo.org to
confirm your attendance.**
